

APPLICATION FOR CERTIFICATION OF WELL

BLOCK: _____ LOT: _____ WELL SITE ADDRESS: _____

WELL DRILLER INFORMATION:
Name: _____
Address: _____
License No.: _____

OWNER*** APPLICANT
Name _____ Address _____ Phone _____ Email _____ Signature _____ Date _____

OWNER CERTIFICATION:
I hereby certify that I am the owner of this property and that this application is being made with my full consent and in accordance with my wishes.
Signature of Owner _____ Date _____
Number of wells to be tested: _____
Peak Demand: Pass [] Fail []
Well Recovery Rate: Pass [] Fail []
Constant Rate: _____ GPM

Address all correspondence to :
Name _____
Address: _____
Phone: _____ Email: _____

FOR TOWNSHIP USE ONLY

APPLICATION FEE
\$100.00 PER _____ WELL(S) \$ _____
TOTAL \$ _____
Date Received: _____
Received by: _____

** The minimum acceptable well recovery rate for Certification of Well is one half (0.5) gpm averaged over the first 30 minutes of recovery. If the well fails to achieve this, the test shall be repeated to ensure that all steps were undertaken correctly. If it fails a second time, the well should be deepened or re-drilled at a different location. Deepening the well may result in encountering additional water-bearing fractures. Generally, if the well depth exceeds 500 feet, the chances on encountering additional water-bearing fractures are minimal. If a replacement well is drilled and fails to pass this test, it may be possible to use both wells in combination to meet the expected demand if the well-recovery rate of both wells together exceeds 0.5 gpm. A well which fails to achieve this recovery rate due to drawdown of less than 5 feet during the pumping phase shall be deemed acceptable.
