Farmland Preservation - Liz Schmid (Report for October, 2013)

Liz Schmid reviewed the following report for October 1, 2013:

Agricultural Advisory Committee Report

October 1, 2013

1. Aljam 1 and 2 - Aljam 1- (Bl 18, lot 5) 133= acres, Aljam 2 - (Block 22, lots 1, 2 and 2.08) a total of 49.78 acres.. Across the street from each other on the corner of Fitzer and Barbertown-Point Breeze Rds. After no response from the family for several months, the primary family member e-mailed his interest again in mid-July. I e-mailed him again with encouragement and the information he needs to make an application with the State for fee simple State acquisition. He has not yet contacted Stefanie Miller, the State representative. She has e-mailed him offering to meet him anywhere he would find convenient. Now there seems to be a for sale sign on the property.
2. The Mulligan Farm (Bl 33Lot 24) - Certified value approved by the SADC at their June meeting. The landowner has decided to continue with preservation.

3.

He has signed a contract with HLT and received final approval from CADB.

3. Helmer Farm (Bl 2, lot 5)- Mr. Helmer has agreed to the County offer, and received final approval from CADB and SADC. Mr. Helmer is aware that the Township does not have funds available to fund the projects at this time. The Helmer farm has been approved for FFRP money. Helmer would cost about \$78,000 in Township funds.
4. Zander Farm (Bl 5, lot 3) - Mr. Zander has agreed to the County offer, and received final approval from CADB. Kate at HLT is waiting for Zander to complete an application with Soil Conservation, required for the Federal application, to submit an application for FRPP money. I will try to get that done before I leave on Friday, but the Office is closed because of the Federal shutdown. Mr. Zander has become comfortable with the federal application. The Township obligation for Zander would be about \$38,000. Because there is no township or Federal money assured at this time, the SADC has put off granting final approval. This situation is complicated by the fact that this property adjoins the other half of the farm that is in Alexandria Township. Since neither piece is large, CADB has conditioned preservation of either piece on the preservation of both. The piece in Alexandria has received final approval from SADC and the owner and the township would like to move ahead with the preservation. Our lack of funds will hold this up.
5. Decker - (Bl 24 -Lot 8) - **Nothing new.** Fee purchase through the State Green Acres program is in progress.
6. Goeckeler (Bl 30, Lot 6) - **Nothing new.** The application is still under review at the State.
7. Gross -Received final approval from SADC in June. Mr. Gross has signed the contract with the County. There is a FRPP application in at the State for this farm to pay the Township portion of the funding.
8. Marramore Inc. ((Bl 20 Lot 5) 59.38 acres - **Nothing new.** According to HLT, this is being worked on as a Green Acres direct purchase. It has also been approved for inclusion in the County FIG.
9. Maritan (Bl 33 Lot 25), 104.71 acres - **Nothing new.** Sharon Gonen, the lead heir in the estate situation, has submitted an application to Green Acres for direct purchase of this property. It adjoins the Clark property and has Locketong frontage.

4. They had approached SADC, but the property did not rank high enough to qualify for the farmland fee simple program. CADB rejected this property for the County FIG.
10. Wydner - (Bl 14, Lot 20) - **Nothing new.** The farm continues to move forward in the State Easement Purchase program. The family has accepted the State offer.
11. If the Township has Green Acres funds that are in jeopardy for lack of use, HLT has two properties that they have ready to go at bargain prices. The owners are willing to take half or less of the appraised value. The first is the two acre Clark property (33/14.05) adjacent to the other Clark piece. He is willing to take half of the value. The difference would be the Township cost share with Green Acres. The second property is the Podpora property (24/16) on Rt. 519 adjacent to the Sommo property. He is willing to take less than half of the appraised value, although that value has not yet been certified by Green Acres.

The members present had a very lengthy discussion regarding which properties they would like to see preserved in the township. Richard Dodds reviewed all the possible properties on the overhead projector on a colored map. It was suggested to obtain more information and look into the Clark and the Podpora properties for next month's meeting.

The members all thanked Liz for her report.
