

## Kingwood Township CAP: Impacted Homeowner Survey

The Kingwood Township Citizens Against the Pipeline (KTCAP) organization and citizens' groups in neighboring communities are committed to opposing the PennEast Pipeline Project and future pipeline projects in our community and region. More information about the PennEast Pipeline and the joint township Citizens Against the Pipeline group is available on the Kingwood Township website [www.kingwoodtownship.com](http://www.kingwoodtownship.com) and at [www.DTCAP.org](http://www.DTCAP.org).

In order to respond effectively to the Federal Energy Regulatory Commission (FERC), **we need to understand the actual effects this project will have on specific properties, environmental and historic features and the impact on farming or other economic operations on your land.** We have general information, but ask for your input because **you** know **your** land best!

To assist our advocacy efforts, KTCAP asks impacted homeowners to complete this survey. This survey is available to be completed online at <https://www.surveymonkey.com/s/8XG5H87>

If you wish complete your answers in writing, please mail your completed survey to:
