The actual Budget is presented in such a way that you may easily distinguish the prior year's budget and actual figures in comparison to this year's projection. The revenues reflect a decrease over last year's budget of \$381.07. Also, this years appropriations reflect an increase of \$183,657.93 over last years final adopted budget.

EXPLANATORY STATEMENT -(Continued) BUDGET MESSAGE

III. Appropriation "CAPS"

All municipalities within the State of New Jersey prepare their annual budgets based on what is commonly referred to as the "CAP" law. This law places restrictions on the amount of increases allowed for operations on an annual basis. For the year 2018 the allowed percentage increase is 2.5 %, which is the "Implicit Price Deflator". The municipality is also allowed to increase their budgets by an additional 3.5% if an ordinance is passed by the governing body. The governing body has elected to increased the budget CAP base by 3.5% for 2018

The actual calculation is somewhat complex, but in general, it works as follows. Starting with the figure in the 2017 budget for Total General Appropriations, the following 2017 budget figures are subtracted; reserve for uncollected taxes, debt service (including school debt services if the municipal government pays it), state and federal aid, cash deficit (if any), emergency appropriations up to 3.0%. Take the resulting figure and multiply it by .035 and this gives you the basic CAP, or the amount of appropriations increase allowed over the 2017 Total General Appropriations.

In addition to the increase allowed above, other increases are allowed. Increases funded by increased valuations from new construction or improvements, from new or increased service fees, or from sale of municipal assets, and expenditures mandated by the state and federal government after January 1, 1993 and amounts required to be paid pursuant to any contract with respect to use, services, or provision of any project, facility or public improvement, for water, sewer, solid waste, parking or any similar purpose, or payment on account of debt service therefore, between municipality and any other municipality, county, school or other district, agency, authority, commission, instrumentality, public corporation, body corporate and politic or political subdivision of the State. Appropriations for the item subtracted in the above paragraph may be set at any necessary level and not subject to the the CAP.

The actual CAPS for this municipality will be reviewed and approved by the Division of Local Government Services in the State Department of Community Affairs, but the calculation upon which this budget was prepared is as follow:

CAPITAL BUDGET AND CAPITAL IMPROVEMENT PROGRAM

This section is included with the Annual Budget pursuant to NJAC 5:30-4. It does not in itself confer any authorization to raise or expend funds. Rather it is a document used as part of the local unit's planning and management program. Specific authorization to expend funds for purposes described in this section must be granted elsewhere, by a separate bond ordinance, by inclusion of a line item in the Capital Improvement Section of this budget, by an ordinance taking the money from the Capital Improvement Fund, or other lawful means.

	If no Capital Budget is included, check the reason why:
	Total capital expenditures this year do not exceed \$25,000, including appropriations for Capital Improvement Fund, Capital Line items and Down Payments on Improvements.
2	No bond ordinances are planned this year.
CAPITAL IMPROVEMENT PROGRAM	A multi-year list of planned capital projects including the current year. Check appropriate box for number of years covered, including current year:
	X 3 years (Population under 10,000)
	6 years (Over 10,000 and all county governments)
8	years (Exceeding minimum time period)
